The detailed procedure of Online Reverse Auction will be provided by Bank to the bidder qualified in Technical Evaluation.

a) Only those Bidders who qualify in pre-qualification and Technical evaluation would be shortlisted for commercial evaluation via Online Reverse Auction conducted by the Bank’s authorized procurement service provider, details of which are provided in Annexure–L. Specific rules for this particular event viz. date and time, start price, bid decrement value, duration of event etc. shall be informed by the Bank/Auction Company to the participating bidders before the event. f) Arithmetic errors, if any, in the price breakup format will be rectified as under:
   i) If there is a discrepancy between the unit price and total price which is obtained by multiplying the unit price with quantity, the unit price shall prevail and the total price shall be corrected unless it is a lower figure. If the bidder does not accept the correction of errors, the bid will be rejected.
   ii) If there is a discrepancy in the unit price quoted in figures and words, the unit price in figures or in words, as the case may be, which corresponds to the total bid price for the bid shall be taken as correct.
   iii) If the vendor has not worked out the total bid price or the total bid price does not correspond to the unit price quoted either in words or figures, the unit price quoted in words shall be taken as correct.
   iv) Bank may waive off any minor infirmity or non-conformity or irregularity in a bid,
which does not constitute a material deviation, provided such a waiving does not prejudice or affect the relative ranking of any bidder.
